PROJECTS

AIRBNB CLONE PROJECT

Built a clone of Airbnb Website created using Express.js and Bootstrap. This web app contains all important aspects that are neccessary. It is built on the MVC Model. It has session management, user authenticaltion and authorisation using Passport

CHATTING APP PROJECT

Creating an app with the help of ReactJs at the frontend and Express at the backend. Socket.io is used implementing websockets and for messaging in realtime. Deployment of this app is to be done on Netlify and Heroku.

ADDITIONAL

Solved problems on more than 50 problems on Leetcode and GeeksForGeeks.
